PROFESSIONAL EXPERIENCE

INTELINAIR, Indianapolis, IN

2026 – Present

IntelinAir is an agricultural technology company that provides automated crop intelligence and data analytics to farmers and agronomists.

Product Manager

2026 – Present

LANTERN, Indianapolis, IN

2024 – 2026

Lantern connects members with specialty care that gets them back to living life, back to good health, back to their families and back to work.

Product Operations

2024 – 2026

- Owned end-to-end product Roadmap management by launching Aha! Roadmaps and Ideas Portal to improve roadmap visibility, centralize planning, and streamline intake processes, consolidating legacy tools and reducing planning friction across 5+ product teams.
- Led overhaul of release communication workflows by implementing automated documentation and publishing processes, cutting cycle time by 50% and improving stakeholder engagement and visibility.
- Partnered with leadership to define and launch Lantern's first Product career ladder and competency matrix, clarifying expectations, leveling criteria, and enabling more objective performance and promotion decisions.
- Built and maintained executive KPI reporting (e.g., Roadmap Health, Backlog Hygiene, Unplanned Work Impact), enabling consistent department-level visibility and data-driven decision making.
- Led monthly Product Demo sessions and quarterly planning activities, communicating product vision and delivery progress to executive and cross-functional stakeholders across R&D, Sales, and Customer Success.

CISCO-WEBEX EVENTS, Indianapolis, IN

2021 – 2024

An all-in-one event management platform to host unforgettable in-person, hybrid, and virtual events.

Senior Product Manager

2022 – 2024

Product Manager

2021 – 2022

- Implemented collaboration tools for Speaker and Sponsor management, leading to 5 customer renewals within the first 7 days of launch and more than 3,000+ collaborations facilitated in the first 2 months.
- Introduced new Privacy and Compliance settings, allowing planners to better manage attendee data and preferences unlocking an additional \$1,061,062.50 in Enterprise revenue, exceeding targets.
- Designed a custom Lobby feature, centralizing crucial event information for planners, which reached a 78% adoption rate within 6 months, demonstrably improving planner experience and event management.
- Developed Embeddable content widgets, enabling planners to manage event details from a single location. With over 75% of small-medium sized events adopting this feature at 6 months, reducing content duplication and saving valuable time.
- Delivered ~12 small-medium feature improvements and requests every quarter, addressing specific customer needs and feedback to continuously delight, and reduce churn.
- Leveraged in-house technology to integrate AI-powered closed captions and translations into all video content, enhancing accessibility for events of all sizes. Which achieved a remarkable 94% adoption rate

within 6 months, surpassing expectations and demonstrating clear user preference over third-party add-on offerings.

- Developed and implemented a direct payment flow for our exhibitor lead retrieval tool. Which generated over \$600,000 in sales within the first 12 months, significantly exceeding expectations and unlocking new revenue streams while also eliminating manual processing for CSM/Support teams, saving 10–15 hours per week and reducing operational costs.

SPRINGBUK, Indianapolis, IN

2017 – 2021

A Health Intelligence Platform that provides actionable insights and direction, from real health data.

Product Manager

2020 – 2021

Program Manager

2019 – 2020

Sr. Project Manager

2017 – 2019

- Worked cross-functionally to build delightful products, execute strategy, and drive business outcomes forward.
- Built strong partnerships with lead engineers, UX designers, and key stakeholders to shape solutions and features.
- Managed pilot partnerships and 3rd party API integrations to drive business growth and explore feasibility of new business opportunities. Resulting in two new growth channels with pilots bringing in over \$100K in new business.
- Facilitated Sprint ceremonies such as planning, daily scrums, retrospectives, stakeholder meetings, and software demonstrations.
